Postal address:								
				Postcode				
Phone number: Home:		Work:		Mobile:				

Description of the Land:

Street number:		Street name:							
Town:				Postcode					
Rates assessment (if known):									

Privacy Statement

The East Gippsland Shire Council asks for details about you to collect rates, approve permits and licences, and run a range of community services. The information you give to us on this form is used only for the reasons set out in the form and is not given to anybody else. Sometimes we may supply details about you to someone else, but only if we are allowed by law, or to protect someone or property.

When submitting documents to Council you are confirming that you have authority to use those documents. In the event that the giving of notice is required pursuant to Section 52 of the Planning and Environment Act 1987, you permit documents submitted as part of this application, including your full contact information to be made available for public viewing on Council's website

When information is given out, Council will always try to make sure your privacy is protected in line with the *Privacy and Data Protection Act 2014*. You may ask for more information about Council's Privacy Policy by contacting our Information Privacy Officer on 03 5153 9500

Bushfire Rebuild Support Service

Referral Form

Bushfire Rebuild Support Service

Referral Form

Please provide a description of what you intend to rebuild on the property. **e.g. dwelling, carport, garage, shedding.**

Please include approximate floor area proposed/other known dimensions.

Do you have a site plan?

☐ Yes

☐ No

Date:

Submission method:

(BRV Hub, Recovery Centre, email, etc.)

If you need more space or have more information you wish to provide, please attach it with this form.

Hard Words

Domestic wastewater system: Most rural properties are not serviced by reticulated sewerage infrastructure. Domestic wastewater systems must manage effluent onsite (e.g. a septic system).

Bushfire Attack Level (BAL): The BAL is a measure of the severity of a building's potential exposure to ember attack, radiant heat and direct flame contact. It is expressed in increments of radiant heat exposure and provides the basis for establishing the requirements for construction to improve protection of building elements.

Geotech Assessment: Bushfires have a significant impact on the landscape due to the loss of vegetation by the fire and clearing of vegetation during clean-up. The assessment determines how to manage erosion and landslip risk through siting and design of dwellings, associated landscaping and erosion management controls.
