1074	Youngs Creek Road	From Corner at 1.50km To South Boundary Road	Orbost	4,880	1 m behind guideposts	Slash	East

About the Program

- The roads and locations listed form Council's core 2026-27 Slashing Program. The program aims to reduce roadside vegetation and bushfire fuel loads, maintain safe and accessible road corridors, and support access for residents and emergency services during the fire season.
- Additional locations or repeat treatments may be programmed throughout the season in response to vegetation growth, seasonal conditions, identified fire risk and emerging priorities, taking into account environmental considerations and available resources.
- Equipment shown is recommended only. Equipment selection may vary according to site conditions and operational requirements.
- The list is arranged alphabetically and does not indicate the order of delivery.
